

**Newsletter 21.11.2006:**

**Dear Partner,**

Nekomat-Belos Oy has changed its name. Our new name is Nekos Oy. We are also introducing a new logo. It communicates the continuing of our long traditions of expertise, our innovativeness and our desire to grow hand in hand with our customers.

**New Premises**

Our sales, engineering, project management and administrative staff will be moving into new premises in Nekala, Tampere, Finland at the turn of the year. Our plant in Loimaa, Finland has been solely in charge of production since the beginning of November.

**Strong, Controllable Growth**

With these changes we aim to make our business even more competitive and international than it is already.

We will continue to specialise in materials handling systems, and the strengths we have over our competitors are quality and innovativeness. We will be investing in service and develop our products hand in hand with our customers.

**Jaakko Laihorinne**  
Managing Director

You can read more about our new image and our services on our website at [www.nekos.fi](http://www.nekos.fi).
